¹The Pre-TCJA 2017 tax numbers were inflated to today's dollars (2024) to give a like-for-like comparison with the current TCJA tax numbers. To arrive at these numbers, we took the current 20% long-term capital gains rate and divided it by the 2017 number to get our inflation factor (1.240174). We then multiplied that amount by the various 2017 tax numbers (e.g., income brackets, exemption amounts, etc.) to arrive at our 2024 numbers. Be mindful that these numbers are estimates. The Post-TCJA numbers in 2026 will be different.

²The standard deduction for dependents is limited to the greater of: 1) \$1,300, or 2) their earned income + \$450, not to exceed the standard deduction amount for a single person.

³The deductibility of advisory fees is just one of several miscellaneous itemized deductions (subject to 2% AGI floor) that are scheduled to return starting in 2026.
